

The Carrimor

“The Ultimate
All-Rounder”

The Carrimor is the wheelbarrow that brings the best of both worlds – its twin wheeled assembly makes it strong and very stable, and at the same time it is highly manoeuvrable and easy to use.

The Carrimor

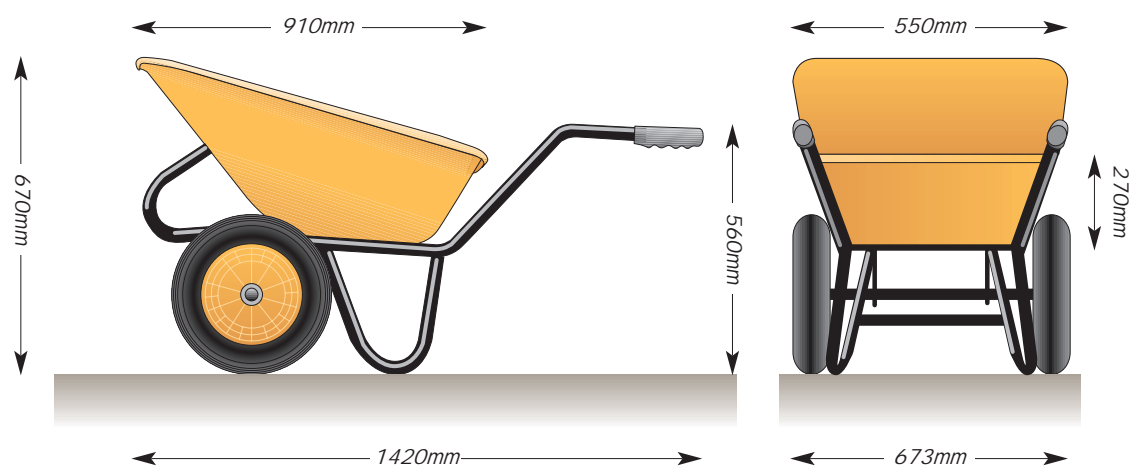

The Carrimor is a heavy duty wheelbarrow with maximum performance.

Stronger and More Durable

- extra leg support for added strength
- wide frame to improve load distribution over uneven ground
- greater stability with twin wheeled assembly
- reinforced, heavy duty wheel brackets
- available in polypropylene, galvanised or epoxy-polyester powder paint finish

Safer with Superior "Tipability"

- design features tipper bar for improved "tipability"
- greater manoeuvrability with low centre of gravity and optimum working position
- improved balance and weight distribution when loaded
- resistance-free smooth pan surface with reinforced holes
- easy-to-change wheel assembly
- available in B.O.P. System
